## Video 2

Normal toothbrush  
With a little of help

**Tick the boxes  
as you brush**

Brush in the morning.

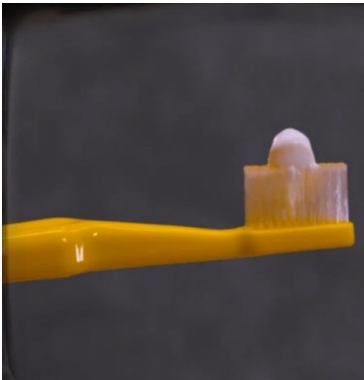

Brush again at night.

Brush for two minutes.

Use a small, soft toothbrush.

Use toothpaste – the size of a pea.

Brush on the top and the bottom.  
Brush on the outside and the inside.  
Brush the biting surface too.

Don't rinse. Just brush, spit and go.
